

Berkeley College Research Fellowships

Berkeley College Research Fellowships are awarded for independent study and research, not for mere travel, work, or enrollment in a school. An internship is a valid use only if the primary component is study or research; being part of a research team is also a valid use. Please submit this form to the BK Head of College Office. Awards, typically in the \$300-\$1000 range, are to be reported to the IRS as taxable income. Awardees must disclose the amounts of any other funds that support the proposed project. Recipients must promptly consult with the Head of College if significant changes occur in the nature or scope of the project prior to its completion.

Eligibility for the fellowship includes all BK students who are eligible for enrollment in the Fall term of the calendar year of application. Preference will be given to applicants who have not previously received this award.

Application window: 15 April - 31 May, for projects occurring later in the same calendar year (Summer or Fall)
