

**J. ROBERT MANN, JR., PE**

*CEO, E-J Electric Installation Co.  
Chairman, E-J Communication Systems  
President, E-J Technical Services Inc.*

J. Robert Mann, Jr. is Chief Operating Officer of E-J Electric Installation Co., founded in 1899. An honors graduate of Yale University, Mr. Mann is an electrical engineer by education and training. He is a recipient of the Yale Science and Engineering Association "Award for Meritorious Service to Yale University". He holds a Professional Engineering license in New York State and Master Electrician licenses in New York, Massachusetts, Connecticut, New Jersey, and Vermont. Mr. Mann is responsible for all phases of electrical projects including estimating, engineering, final preparation of bids, staff organization, supervision, and contract control.

***E-J Electric Installation Company** is active in all facets of electrical contracting. Projects are competitively bid and/or negotiated and vary in size to over \$70 million. Typical installations include: office buildings, power plants, hospitals, co-generation facilities, sports arenas, data communication centers, airline computer systems (120 cities in the United States), industrial plants, universities, movie studios, transportation facilities, and high voltage and Fiber Optic distribution. Clients include the United Nations, Port Authority of New York & New Jersey, Columbia University, United States Tennis Center, British Airways, NBC, CBS Montefiore Hospital and Medical Center, Boston Properties, Jazz at Lincoln Center and Bank of America.*

***E-J Communication Systems** provides expertise in all phases of the most complex data/telecommunications systems. As a single source vendor, E-J Communication Systems designs, furnishes, installs, and maintains the full range of high-technology networks. On site experience covers installations from corporate office buildings to multi-site financial service facilities. The company also specializes in providing other network services including building management, life and fire safety, security, and audio-visual systems.*

***E-J Technical Services Inc.** acts as owner's representative on construction projects ranging in size from \$500,000 to \$20 million. In addition, the company provides real estate investors, owners and lenders with inspection, evaluation and detailed written reports on architectural, structural, mechanical, energy and code problems of existing structures, facilities, and sites.*

**PROFESSIONAL AFFILIATIONS**
